

GOOD FORTUNE

PJ Harvey

VERSE 1

Threw my bad fortune off the top of a tall building
I'd rather done it with you
Your boy's smile, five in the morning
Looked into your eyes and I was really in love
In Chinatown, hungover
You showed me just what I could do
Talking about time travel and the meaning
And just what it was worth

CHORUS

And I feel like some bird of paradise
My bad fortune slipping away
And I feel the innocence of a child
Everybody's got something good to say

VERSE 2

Things I once thought unbelievable in my life
Have all taken place
When we walked through Little Italy
I saw my reflection come right off your face
I paint pictures to remember
You're too beautiful to put into words
Like a gypsy, you dance in circles all around me
And all over the world

CHORUS

And I feel like some bird of paradise
My bad fortune slipping away
And I feel the innocence of a child
Everybody's got something good to say

OUTRO

So I take my good fortune
And I fantasize of our leaving
Like some modern day gypsy landslide
Like some modern day Bonnie and Clyde
On the run again
